The motion is granted with respect to the filing/ briefing of responsive pleadings or motions to dismiss. It is denied with respect to the briefing of the motion for class certification. The magistrate judge will schedule a telephone status conference to address class certification briefing and suspends the current briefing deadline temporarily to accommodate that conference. In preparing for that conference, counsel should note that the court looks with disfavor on leaving in abeyance the briefing and determination of a pending motion for any significant period, as was requested here.
